

Black History Month 2023

Black Advancement

This year we celebrate Black History Month with a theme of **Black Advancement**. This is a call to action for all of us to promote education, provide access and boldly demand inclusion for members of our Black community in all areas of the American experience. We must find ways to help navigate the labyrinth of hurdles that were designed to prevent Black people from gaining access to resources. Together we can find ways to bring about the advancement of Black people in every aspect of life by incorporating intention and purpose.

Events include

- Yoga and Zumba Fitness
- BCH Town Hall
- Black Voices Series
- Trivia
- “Thriving While Surviving” by Dante King, MD
- Museum of African Diaspora
- Black Advancement at BCH
- Black Heritage Gala
