

International Women's Week 2024

BCH Diversity, Equity, Inclusion and Anti-Racism Council is

Envisioning the Future of Healthcare

Monday, March 4 | 12 pm – 1 pm

Can you conceive a world that is radically different from the one in which we currently live in? We can create a reality or future that we have never seen or experienced. This discussion provides a forum for the freedom to reimagine what healthcare could become. We have a panel of women representing different areas of our healthcare system, who will share their ideas about the future.
